*Peel and Stick!
It's just that quick.*

Not everyone loads their equipment the same way. Most people in the industry consider RMU "1" to be the first mounting unit at the bottom of their enclosure. Some people look at their racks and enclosures differently. They organize their electrical, data and communication equipment top to bottom, calling the top RMU "1". We can accommodate both.

Now, no matter how you wish to load your racks or enclosures, Great Lakes has you "covered" with our RMU Tape, available in ascending order or descending order.

Each set of labels has a black powder coat look and they are easy to "peel & stick". Great Lakes' RMU tape takes the guess work out of rail location identification!

Part No.	Description
GL-RMUTA	Package of four (4), ascending 1-45 Rack Mount Unit (RMU) labels. (1 on the bottom 45 on the top)
GL-RMUTD	Package of four (4), descending 1- 45 Rack Mount Unit (RMU) labels. (1 on the top 45 on the bottom)
