VCT - VERTICAL CABLE TROUGH

The ES server enclosure is designed to accommodate high density cable management, cooling, and power needs. Great Lakes Vertical Cable Troughs (VCT) are made for those cable management needs.

Formed from a single sheet of 14 gauge, cold rolled steel, the VCT provides fingers and attachment points for additional cable management within the enclosure. When used with an 84"H x 48"D enclosure, up to three troughs can be mounted in each rear corner; two troughs in each corner when using 42"D enclosures. A combination of cable troughs and power strips can also be mounted.

Great Lakes also offers an easy-to-install 16 gauge VCT cover to provide a clean and seamless look to any enclosure.

For more information, contact your Great Lakes representative or call 1.866.TRY.GLCC (879.4522).

Part No.	Description
VCT-84	Vertical Cable Trough for 84.00"H ES Enclosure; 68.00"H x 3.00"W x 2.50"D
