

WM-23 SERIES ENCLOSURES

The WM-23 Series is a made-to-order NEMA rated product that can be manufactured to any dimension (up to a maximum size) and its material, coating, and color can be modified to meet the specific requirements of the user. The variation of manufacturing specifications and options to integrate a number of accessories make the WM-23 flexible for deployment in numerous environments.

GLCC industrial solutions—when you need more than out-of-the-box.

- Suitable for indoor/outdoor use to protect against ingress of solid foreign objects (falling dirt) and water (rain, sleet, snow)
- Enclosure can be manufactured up to 84"H x 36"W x 30"D and maintain its UL listing and NEMA rating
- "L" handle with three-point latch system maximizes compression between the door and enclosure
- Capability to swap standard handle with options that provide increased security
- Single door mounted with removable hinge pins
- Threaded stand off for optional back panel
- Optional accessories, including EIA spaced rails, can be integrated at GLCC®
- Kits available for wall/pole mounting or pad mount feet/riser
- UL508A Listed, NEMA 250 Type 3R, RoHS II Compliant
