

P & S

+ PLAIN & SIMPLE

Plain and simple, you will not find better products—from design to customization to reliability. You will not find more comprehensive and faster service. You will not experience more caring, committed people. Together, it means you will not ever regret your decision to choose us over them. It's a big responsibility, but we're up for it. When it comes to your server room, literally and figuratively, you can put it all on us.

ENCLOSURES, WALL MOUNTS, RACKS

- UL Listed metal product manufactured in the USA that provides flexibility for deployment in any environment and application
- Most product typically in stock and able to ship 24-48 hours ARO

Put it all on us

+ PLAIN & SIMPLE

MADE-TO-ORDER PRODUCT

- Customized to exact specifications, whether that means off-the-shelf or totally-from-scratch
- Product to meet not only telecom and industrial applications, but also unique situations that can be addressed with a metal product
- No minimum order quantity required

SECURITY SOLUTIONS

- SEAL®, GLCC's portfolio of metal products and intelligent access controls, protects against physical intrusion
- Ability to upgrade existing GLCC products (or from other manufacturers) with SEAL accessories
- For security solutions, visit SEALenclosures.com

STACK INTEGRATION SERVICES

- Configure enclosures, wall mounts, and racks to exact customer specifications
- Integrate GLCC® accessories, third-party product, electrical components, PDUs and intelligent access
- Unique crates, shock pallets, and custom packaging available to protect configured product

STACK INVENTORY

- Option to include configured product as part of standing inventory for immediate shipment
- All integrated components from third-party providers can be drop shipped and stored at GLCC for future use
- For easy ordering, a single part number encompasses the enclosure and all accessories

ORDERING

- Experienced inside sales and technical support able to provide immediate assistance, with responses typically the same day
- A unique serial number (placed inside every product) identifies all details of the order, allowing GLCC to easily help with inquiries
- Never a minimum order quantity (or dollar value!) for standard or custom product

SHIPPING & DELIVERY

- “Pre-pay and Add” shipping policy that ensures timely and safe delivery of product—a single call to GLCC and we'll take care of the problem if something does arise
- Delivery methods include standard dock-to-dock and specialty options
- On-site services include packaging removal and product delivery to specific indoor locations
