

# VCB & HCB CABLE MANAGEMENT

Vertical and horizontal cable bars can be positioned exactly where needed inside of the enclosure and when utilized with cinch straps and "D" rings, bars create the most flexible solution for routing cables top-to-bottom and front-to-rear.

- Compatible with ES, EN, E and EZ enclosures
- Kits include one vertical bar, two horizontal bars, and six, 12"L cinch straps
- Install extra vertical and horizontal bars in conjunction with kits
- Vertical bar slides along horizontal bars for easy positioning
- Obround pattern for cinch straps
- Square hole pattern for optional ¼ turn "D" rings
- "D" rings feature square-tab on two sides for horizontal or vertical orientation
- 3.5" x 5" "D" rings ideal for use with VCBs
- 1.5" x 3.5" "D" rings ideal for use with HCBs

Configure enclosures with cable management prior to shipping.
