

product spotlight

2 POST RACK

FEATURES

- 19" EIA 310-E Compliant
- 84"H, 45 RMU
- 1500 lb. weight capacity when bolted to floor
- Choose from black anodized finish or silver mill finish
- 84"H racks are standard product and able to ship with 24-48 hours after receipt of order

WHY IT'S GREAT

- Metal is anodized before the #12-24 hole pattern is drilled. This means no residue falls into the mounting holes, allowing for easy insertion and removal of screws (Most industry racks are powder coated which creates a "sticky" mounting pattern as powder coat particles fall into the holes, making it difficult to mount equipment)
- Uprights are secured to the base and top angle with 1/2" bolts in tapped holes; bolts can be finger tightened; no nuts required for assembly
- Copper bus bar can be installed and will easily conduct a ground because it is in contact with metal

PART NO.

GLRR-1984

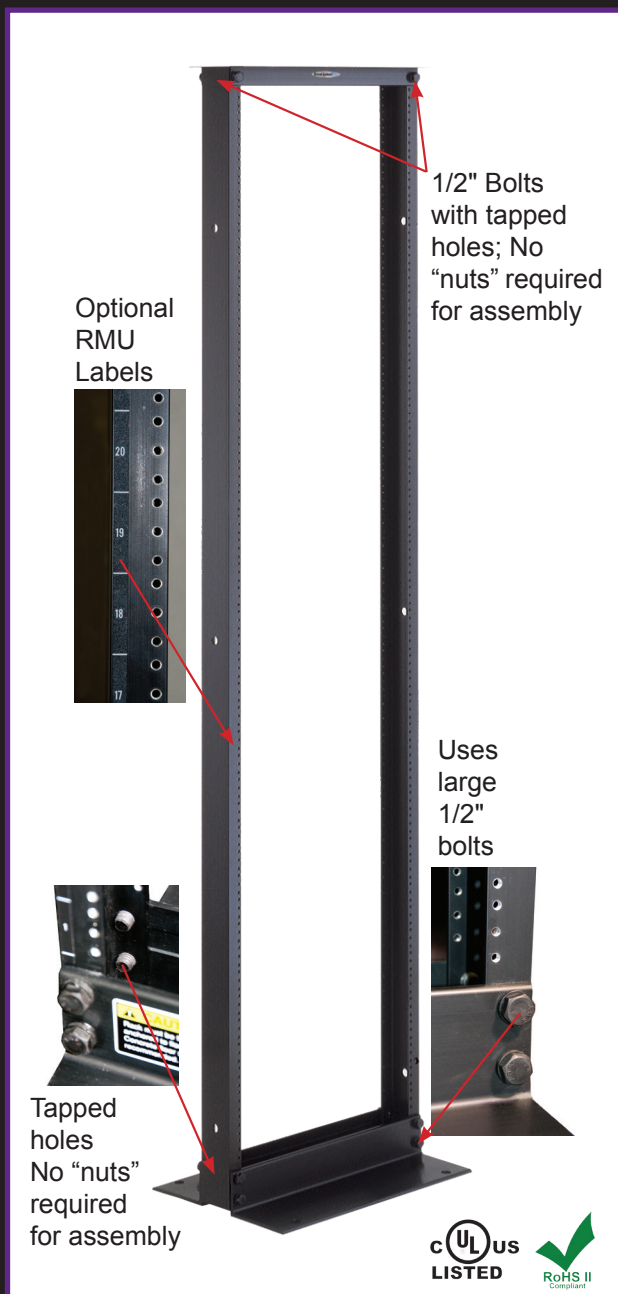

GLRR-1984BA

DESCRIPTION

2 Post Rack with silver mill finish

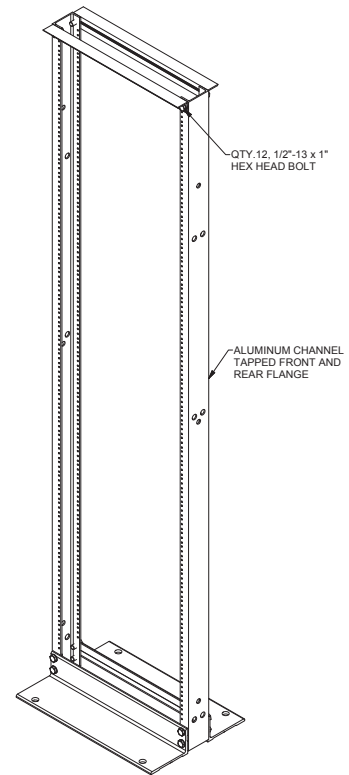

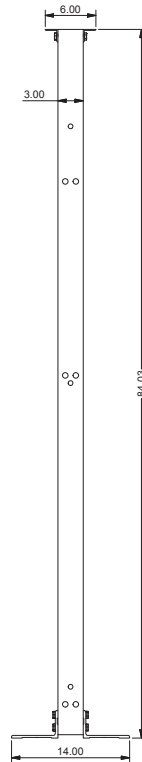

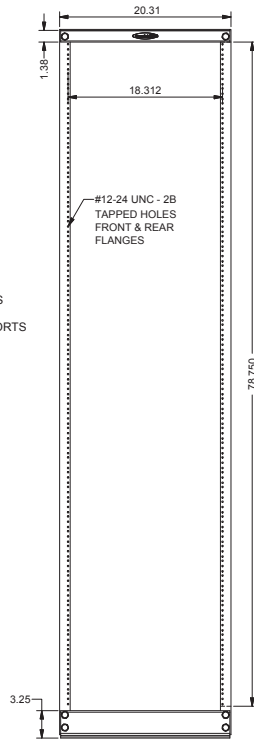

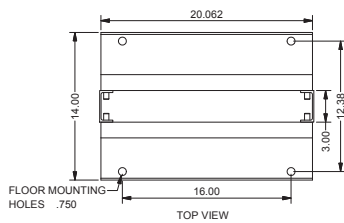

2 Post Rack with black anodized finish

More details on reverse side of this Product Spotlight.
