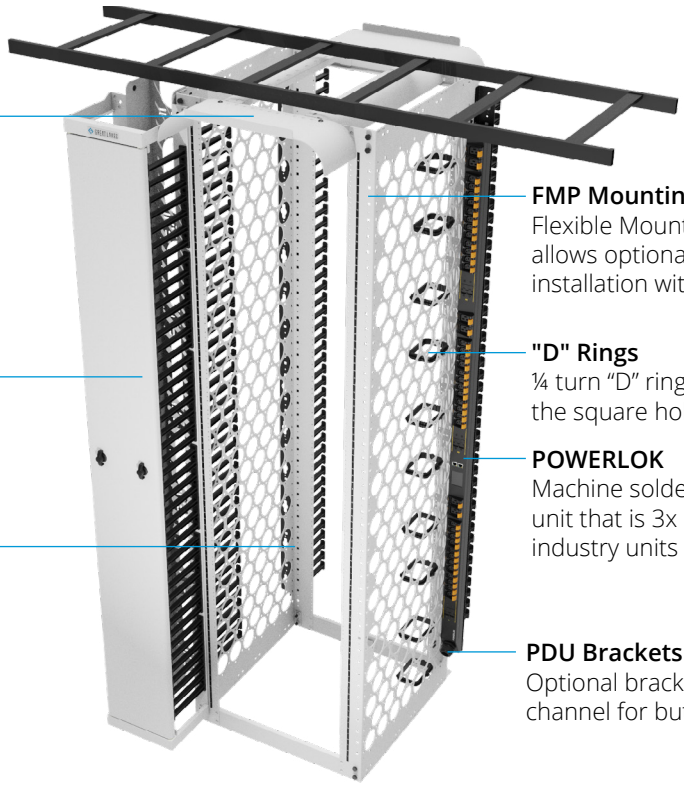
CMRX

EXCEPTIONAL CABLE MANAGEMENT SUPPORT IN A SINGLE RACK



Waterfall Bracket
Integrated radius on brackets provide a smooth transition for cables from rack to overhead runway

Vertical Cable Manager
Optional front only or front and rear VCMs are fully assembled and install with just 2 bolts

Channel Pattern
Circles on staggered centers provide unlimited cable attachment points for cable bundles

FMP Mounting
Flexible Mounting Profile along the channel allows optional finger and accessory installation without occupying RMU

"D" Rings
¼ turn "D" rings can be mounted in any of the square hole patterns along the channel

POWERLOK
Machine soldered connections create a unit that is 3x more reliable than other industry units

PDU Brackets
Optional brackets attach to the side of the channel for button mounting PDUs
