

# VRX

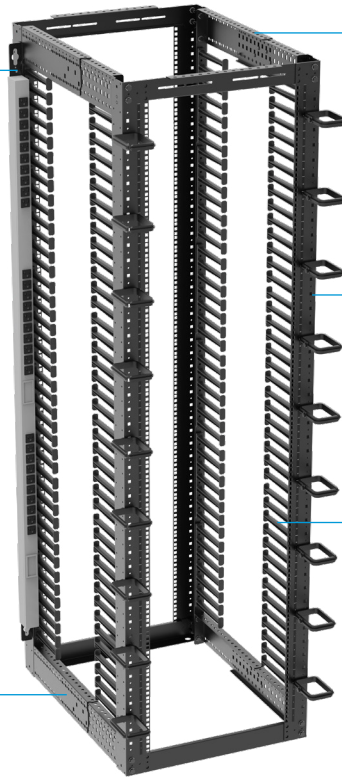

## ADJUSTABLE AND ADAPTABLE FOR UNIVERSAL DEPLOYMENT

### PDU/Cable Management Bar

The VPCB1 mounts to the side of the channel in a PDU (to button mount a single PDU) or cable management orientation (to provide additional mounting points for fingers and "D" rings)

### Variable Depth

Side rails provide variable depth in 1" increments

### Overhead Mounting

Mounting pattern on top of rack allows runway to rest directly on rack or accepts ladder rack brackets

### "D" Ring Mounting

¼ turn "D" rings (optional) can be mounted in any of the square hole patterns along the channel; rings can be orientated horizontally or vertically

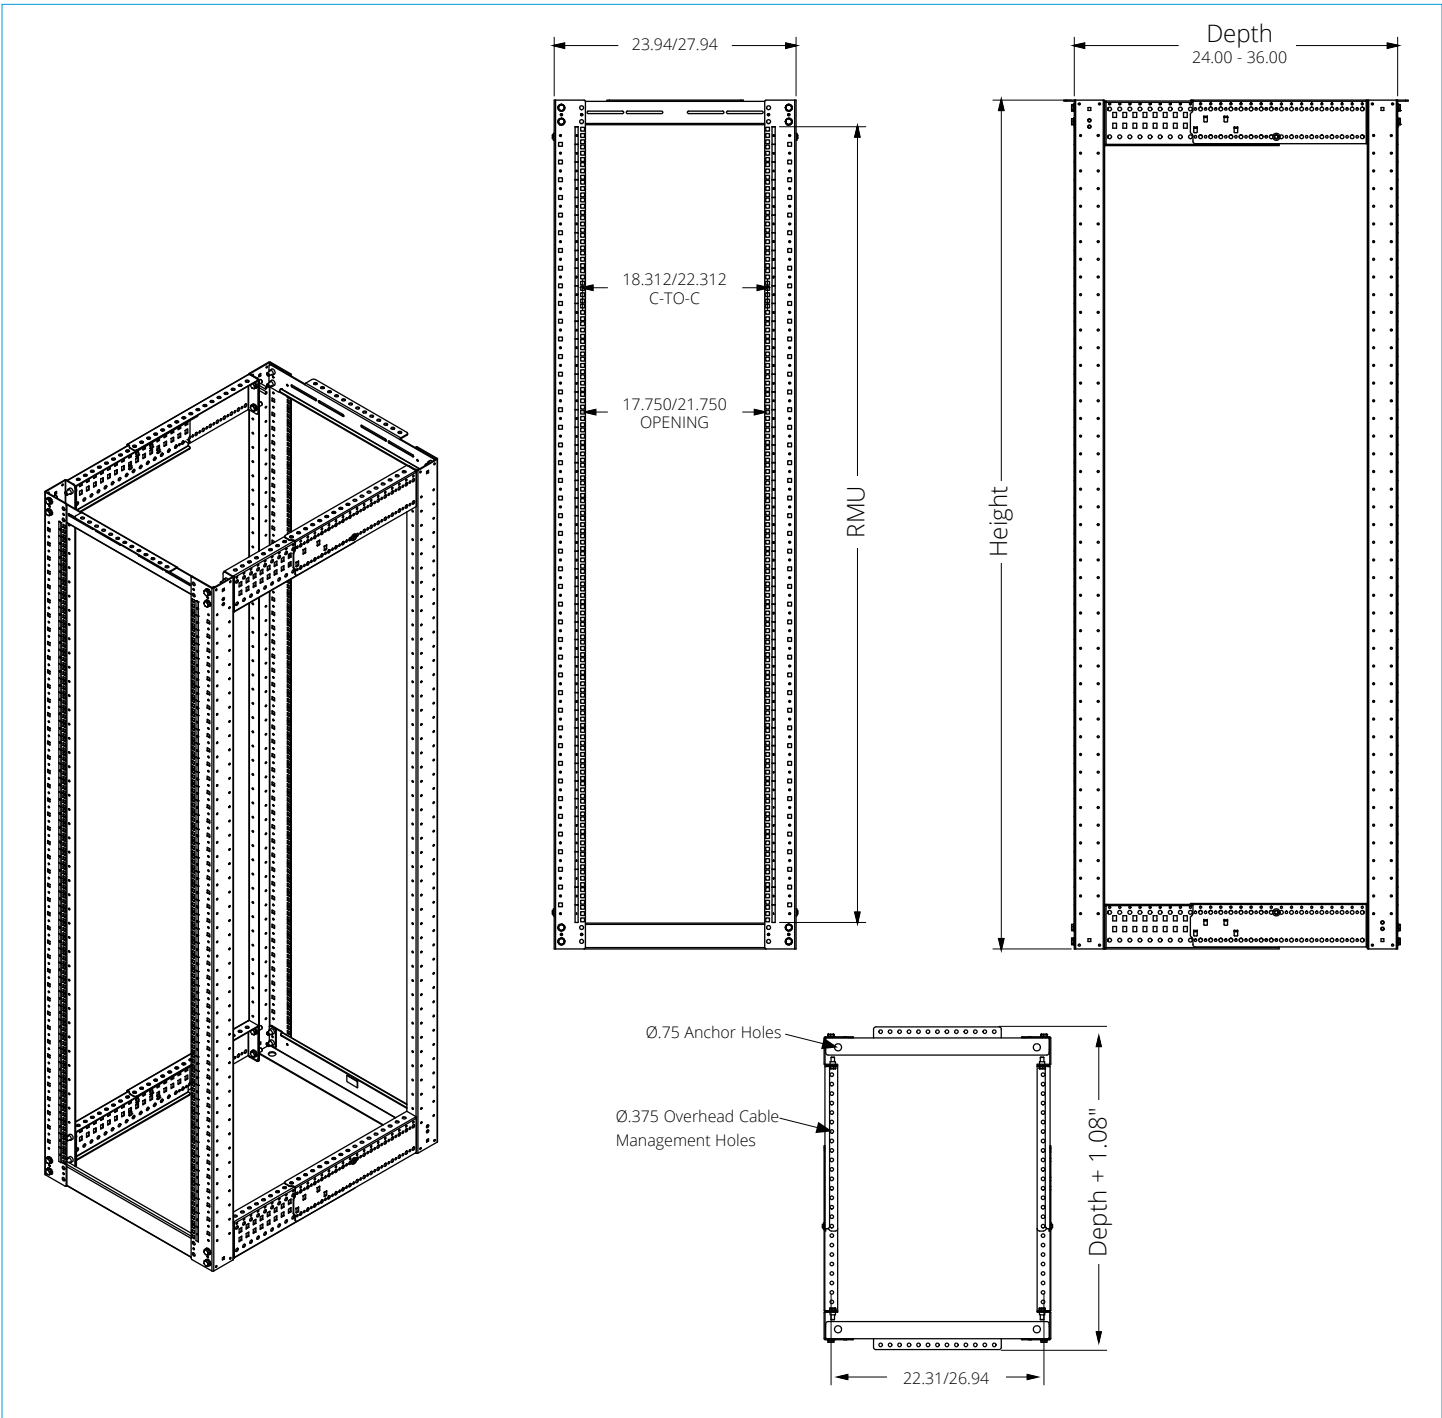

### FMP Mounting

Flexible Mounting Profile along front and rear face of channel allows finger (optional) and accessory installation without occupying RMU

Height	Color	Mounting	Example
VRX-xxU2436	x-	xxxx-	Configured VRX
45	B (Black)	1224 (tapped 12-24)	VRX-45U2436-B-1224
52	W (White)	SQM6 (3/8" sq. M6)	
59			

## FEATURES

- #12-24 tapped or 3/8" sq. (M6) channels (with RMU markings) for 19" and 23" mounting
- Square hole pattern and FMP pattern along the front and rear face of channels accept "D" rings and fingers for horizontal cable support
- Side rails provide variable depth in 1" increments, 24-36"D
- Self squaring assembly with toe-in or toe-out orientation
- Weight capacity 2500 lbs.
- Standards: UL2416, RoHS II

**POPULAR ACCESSORIES**

Part No.	Description
ESC-K12-7	7" x 7 RMU, set of 12 finger sections; mount along FMP
CM-11	3"W x 5"D, set of five rings; mount along FMP
CM-25	1.5" x 3.5", set of 10 rings; mount along rack uprights
CM-26	3.5" x 5", set of 10 rings; mount along rack uprights
PDU2	One pair of brackets with 2 mounting positions for PDUs; mount along FMP
VPCB1	Single power cable bar; mount along FMP
Vertical Cable Managers	Front only and front/rear VCMs available
